

ABHISHEK MIDHA

Software Engineer in Test (SDET)

+91-7973709617 — abhishekmidha518@gmail.com — LinkedIn — Portfolio — GitHub

Professional Summary

SDET with hands-on experience delivering 95%+ functional coverage across production releases at Accenture. Specialised in building scalable automation frameworks using Playwright and Appium, integrating CI/CD pipelines via GitHub Actions, and reducing manual regression effort by 40%. Experienced across web and mobile testing with a strong foundation in Java, TypeScript and API automation using RestAssured.

Skills

Test Automation: Playwright, Selenium WebDriver, Appium (Android & iOS), JUnit, Page Object Model (POM), Data-Driven Testing, Reusable Component Architecture

Frameworks & Build: Cucumber (BDD), TestNG, Maven, GitHub Actions (CI/CD), REST Assured, Postman

Programming: Java (OOPs, Collections, Exception Handling), JavaScript / TypeScript, Python, SQL

QA Methodology: Test Strategy, Test Plan, Test Case Design, SDLC, UAT, Defect Lifecycle Management, Regression Testing, Functional & UI Testing, Traceability, Root Cause Analysis

Tools & Platforms: JIRA, BrowserStack, Git/GitHub, Rally

Experience

Quality Engineer - Accenture

September 2024 – Present

Client - The Hartford

- Designed and executed 150+ E2E test scenarios using Playwright, achieving 95%+ functional coverage consistently across every production release.
- Built cross-platform mobile automation framework using Appium for Android and iOS, improving test coverage by 40% and reducing manual regression effort per sprint.
- Led regression testing cycles across 10+ sprints, identifying impacted areas per release and maintaining a 95%+ pre-production bug catch rate with zero critical escapes to production.
- Integrated Playwright Integration test suites with GitHub Actions CI/CD pipeline, enabling automated test execution on every pull request and eliminating manual trigger dependency.
- Partnered with Product Owners, Business Analysts, and stakeholders to refine requirements, reducing ambiguity and improving release quality across 10+ sprints

Projects

E-commerce Test Automation Framework | *Playwright · TypeScript · GitHub Actions*

- Built E2E automation framework with POM architecture covering login, cart and checkout workflows with dual CI pipelines and Playwright execution reports.

REST API Automation Framework | *Java · Rest Assured · TestNG*

- Automated CRUD operations with JSON schema validation, Bearer Token auth and chained API flows with detailed TestNG failure reports.

Certifications

Google Cloud Digital Leader – GCP

Core Areas: Compute Engine, Cloud Storage, IAM, Networking, Cost Optimization

Databricks Generative AI Associate

Concepts: Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Workflows

Java Certification – Pantech E-Learning

Core Skills: OOPs (Inheritance, Polymorphism, Abstraction, Encapsulation), Collections, Exception Handling, JDBC, Multithreading

Education

Bachelor of Science in Computer Applications

June 2021 - May 2024

Panjab University, Chandigarh

Percentage: 76%
