

ABHISHEK MIDHA

Quality Engineer (Automation)

+91-7973709617 — abhishekmidha518@gmail.com — linkedin.com/in/abhishek-midha-qa

Summary

Automation-focused Quality Engineer with hands-on experience in Playwright, Selenium, and Appium for web and mobile testing. Experienced in building and maintaining scalable automation frameworks, integrating test suites with CI/CD pipelines, and performing API testing using RestAssured. Strong understanding of Agile practices, with a focus on improving test coverage, reducing manual effort, and ensuring reliable, high-quality releases. Experienced in Test Automation Framework development and Continuous Testing within CI/CD pipelines.

Skills

Test Automation: Playwright, Selenium WebDriver, Appium (Android & iOS), Page Object Model (POM), Data-Driven Testing, Reusable Component Architecture

API & Backend Testing: REST Assured, Postman, Request/Response Validation

Frameworks & Build: Cucumber (BDD), TestNG, JUnit, Maven, GitHub Actions (CI/CD)

Programming: Java (OOPs, Collections, Exception Handling), JavaScript / TypeScript

QA Methodology: Test Strategy, Test Case Design, Defect Lifecycle Management, Regression Testing, Functional & UI Testing, Traceability

Tools & Platforms: JIRA, BrowserStack, Git/GitHub, Rally

Experience

Quality Engineer - Accenture

January 2025 – Present

Client - The Hartford

- Designed and executed 150+ E2E test scenarios using Playwright, achieving 95%+ functional coverage consistently across every production release.
- Built and maintained a scalable Playwright automation framework using Page Object Model and reusable component architecture, covering 50+ test scenarios across evolving product features.
- Built cross-platform mobile automation framework using Appium for Android and iOS, improving test coverage by 40% and reducing manual regression effort per sprint.
- Led regression testing cycles across 10+ sprints, identifying impacted areas per release and maintaining a 95%+ pre-production bug catch rate with zero critical escapes to production.
- Integrated Playwright Integration test suites with GitHub Actions CI/CD pipeline, enabling automated test execution on every pull request and eliminating manual trigger dependency.
- Partnered with Product Owners, Business Analysts, and stakeholders to refine requirements, reducing ambiguity and improving release quality across 10+ sprints
- Managed Full defect lifecycle — logging, triage, root cause analysis, and resolution tracking — maintaining zero critical bug escapes

Certifications

Google Cloud Digital Leader – GCP

Core Areas: Compute Engine, Cloud Storage, IAM, Networking, Cost Optimization

Databricks Generative AI Associate

Concepts: Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Workflows

Java Certification – Pantech E-Learning

Core Skills: OOPs (Inheritance, Polymorphism, Abstraction, Encapsulation), Collections, Exception Handling, JDBC, Multithreading

Education

B.Sc. Computer Applications

June 2021 - May 2024

Panjab University, Chandigarh

Percentage: 76%
